

## DROP FORGED CHAINS

Drop Forged Chains are used for feeder tables and in cone washing stations. These chains are of simple construction and require no tools for assembly or disassembly. The chain can be turned over to provide new sliding surfaces after the original side has worn. Forged double "T" head pins provide positive locking action in the sidebars. Additionally, when worn, the pin cone can be rotated 180° putting the unworn pin surfaces in contact with the sidebar and centre link. This partially restores the original pitch, thereby increasing the effective life of the chain.

CHAIN NUMBER	PITCH	BREAKING LOAD	WEIGHT LB/FT	D	G	L	W
348	3.015	24,000	2.2	0.5	0.75	1.85	1.06
458	4.031	48,000	3.2	0.625	1.01	2.28	1.378
678	6.031	85,000	6.7	0.875	1.29	3.13	2.00
698	6.031	136,000	11.4	1.12	1.55	3.75	2.69
